

TERMS AND CONDITIONS

Protection of Client Funds

DKK Partners Ltd takes the safeguarding of client funds seriously. Funds received from clients are held in segregated bank accounts, kept separate from the company's operational accounts. This structure helps ensure that client money is not mixed with company finances.

Secure Infrastructure

Our banking partners and financial institutions maintain secure infrastructure that includes encryption, layered security protocols, and monitoring systems designed to protect client funds and payment data.

Accepted Payment Channels

Payments are processed exclusively through official banking channels. Physical cash is not accepted or processed under any circumstances, ensuring that all transactions remain traceable and transparent.

Segregation of Client Funds

A strict policy is applied to keep client funds separate from company funds, providing an additional layer of protection for clients.

Regular Checks and Reconciliation

Internal reconciliations are conducted regularly to verify balances and confirm the accuracy of records relating to client funds. Where appropriate, independent external reviews may also be carried out to test the integrity of these processes.

Best Practice Standards

Although DKK Partners Ltd is not a regulated entity, the company is committed to adopting industry best practices for the protection of client funds, transparency of transactions, and the safeguarding of client information.

Transparency and Client Assurance

Trust and confidence are central to the services provided. DKK Partners Ltd is committed to fairness, openness, and the ongoing protection of client interests. For any questions or further information, clients are encouraged to contact us.

Disclaimer: These Terms and Conditions provide a general overview of DKK Partners Ltd's approach to client fund protection and operational standards. They do not replace or override the formal Terms of Business, which govern the legal relationship with clients and are provided as part of the onboarding process.
